# THE GREEN VIBE

Whether rustic or elegant, arrangements brimming with lush foliage can work for any fete. It doesn't get much more green than this design: Full of asparagus ferns, flowering Echeveria succulents and Phlebodium. Don't forget the candles — the bigger the better. When working with a restrained palette, play with textures and heights to create a dynamic setting.

Luxury is in the finer details. Let every element on the table come together to narrate a story. For a luxe take, go simple with your table furnishings and bling with your choice of tableware — think brass or copper.

## A TOUCH OF TRADITION...

...with a hint of whimsy, that's what this look is all about. To heighten the India modern theme, opt for brass thalis as dinnerware. Get creative, it's your party. Switch floral garlands with origami festoons for an element of surprise! We like the idea of creating screens with these hanging designs...what do you think?
