

10TH STREET CAFE

Black and White

Designed by **Sumesh Menon Associates**, the newly done 10th Street Cafe in Juhu embraces classic European style for the interiors. Doused in the evergreen combination of black and white, the entire space has a chic and luxurious feel with a cosy outdoor space. The space also uses muted lighting

fixtures and a luscious black granite bar that reflect the theme of the cafe. Delicately moulded elements on the ceiling and facade beautifully add to the design. The winged chairs, rich leather upholstery and elegant wall paper paired with a bevelled glass facade are some of the many elegant decor elements. ■
